

Have you downloaded the 'Sentral for Parents' app?

Sentral for parents will be used as a communication tool that will allow parents and carers to:

- record absences
- receive timely notifications about events occurring at school
- access weekly newsletters
- access a direct link to notes and the school website
- check the school calendar for all necessary information needed for planning in advance
- book in for parent/teacher interviews
- access academic reports
- make a payment

In order for parents and carers to be able to use all of these features we require all families to register for access using the steps below.

1. Download the app from your relevant app store.

2. Ask our friendly office staff for the access key to your child/ren. (Please note that students must be enrolled in attendance before an access key can be generated, however, you can still receive school broadcasts without the access key.)
3. You can also visit the browser version at:
<https://hps.sentral.com.au/portal>
